

ASX SMALL AND MID-CAP CONFERENCE*16 - 17 March 2021, Virtual Conference*

Adelaide, Australia, 15 March 2021: Australian hi-tech company Micro-X Ltd (ASX:MX1) (**Micro-X** or the **Company**), a leader in cold cathode x-ray technology for the healthcare and security markets globally, announces that the Company will appear on the ASX Small and Mid-Cap Conference between Tuesday 16 March and Wednesday 17 March 2021.

The ASX Small and Mid Cap Conference is a two day virtual event which promotes and showcases emerging leaders across a broad range of ASX-listed small and mid-cap companies. The conference includes 20 ASX-listed companies and up to 2,000 investors via a 15-minute live stream presentation followed by a live group Q&A session. The conference will also showcase a further 13 companies through an 'on demand' section which consists of a pre-recorded 15 minute presentation by Companies available during the conference and which has received over 700 views in past years.

More information on the conference, as well as details for how to register to attend can be found here:

<https://www2.asx.com.au/investors/investment-tools-and-resources/events/smld>

Micro-X's 15 minute video presented by CEO and Managing Director, Peter Rowland will be on the ASX conference's platform across the two days of the event under the 'on demand' section in the virtual conference hub. The Micro-X presentation for the conference is attached:

This announcement is approved by Kingsley Hall, Company Secretary of Micro-X.

About Micro-X

Micro-X Limited (the **Company**) is an ASX listed hi-tech company developing and commercialising a range of innovative products for global health and security markets, based on proprietary cold cathode, carbon nanotube (CNT) emitter technology. The electronic control of emitters with this technology enables x-ray products with significant reduction in size, weight and power requirements, enabling greater mobility and ease of use in existing x-ray markets and a range of new and unique security and defence applications. Micro-X has two mobile digital medical x-ray systems being sold commercially for diagnostic healthcare applications and Micro-X medical products are now in operation in 14 countries around the world.

Micro-X has a portfolio of innovative products in development, including the MBI for imaging Improvised Explosive Devices in security, defence and counter-terrorism applications; a next-generation self-service X-Ray Airport Checkpoint Portal with an integrated body scanner; and a lightweight brain CT imager for early stroke diagnosis in ambulances. Micro-X has its core R&D, engineering and production capability in Adelaide, Australia with a fully in-sourced CNT tube manufacturing line and approximately 95% Australian locally manufactured content.

IMPORTANT NOTICE

DISCLAIMER

SCOPE & LIMITATIONS

This Presentation has been prepared by Micro-X Limited (**Micro-X** or the **Company**) (ASX.MX1). The Presentation is a summary only and does not contain all the information about the Company's assets and liabilities, financial position and performance, profits and losses and prospects. This material in this Presentation may be supplemented with an oral presentation and/or other more detailed documents and should not be taken out of context. Although the information contained herein is based upon generally available information and has been obtained from third-party sources believed to be reliable, the Company does not guarantee its accuracy, and such information may be incomplete or condensed. The Company also refers to its filings made with the ASX Limited and the Australian Securities & Investments Commission.

FORWARD LOOKING INFORMATION

This Presentation contains forward looking and other subjective information. Such expectations, estimates, projections and information are not a guarantee of future performance and involve unknown risks and uncertainties. Actual results and developments will almost certainly differ from those expressed or implied and recipients of this Presentation should make their own assessment of the expectations, estimates, projections and the relevant assumptions and calculations upon which the opinions, estimates and projections are based. No representation or warranty, express or implied, is given as to the accuracy or completeness of the information or opinions contained in this Presentation and no liability whatsoever is accepted by the Company, or its directors, members, officers, employees, agents or advisers for any use or, or reliance placed upon, such information or opinions.

NOT AN OFFER FOR SECURITIES

This Presentation is not a prospectus, product disclosure statement or other offering document under Australian law (and will not be lodged with ASIC) or any other law. This Presentation does not constitute an offer, invitation, solicitation or recommendation with respect to the purchase or sale of any shares nor does it constitute financial product or investment advice nor take into account your investment objectives, taxation situation, financial situation or needs. An investor must not act on the basis of any matter contained in this Presentation but must make its own assessment of the Company and conduct its own investigations and analysis. Before making an investment in the Company, a prospective investor should consider whether such an investment is appropriate to their particular investment objectives and financial situation and seek appropriate advice, including legal, taxation and financial advice appropriate to their jurisdiction and circumstances.

UNITED STATES

The Company's securities have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the **Securities Act**), or under the securities laws of any state or other jurisdiction of the United States. Accordingly, the Company's securities may not be offered or sold, directly or indirectly, within the United States or to, or for the account of benefit of, U.S. Persons (as defined in Regulation S under the Securities Act as amended). This Presentation may not be distributed within the United States or to any person in the United States

OTHER JURISDICTIONS

This Presentation may only be accessed in other jurisdictions where it is legal to do so.

NEXT GENERATION X-RAY FOR GLOBAL HEALTH AND SECURITY MARKETS

Platform technology in cold cathode x-ray

- X-ray products with significant reduction in size, weight and power
- **Patented technology** – platform for health and new security applications
- **First to market** with proven cold cathode medical x-ray product

Mobile DR - proven product performance and reliability

- Mobile ultra-lightweight digital x-ray system for bedside imaging
- 'Nano' - approved for sale in 40 countries, highly portable and easy to disinfect
- 'Rover' - first sales via World Health Organisation in 2020 and first military contract with ADF

IED Imaging Camera - MBI

- DoD funded development to assist with rapid, un-manned bomb and IED assessment
- Major technical breakthrough reduces project time and costs – first prototype by end 2021

Airport Self Service Checkpoint

- Up to **\$5m funding from TSA** to design concept for next generation airport checkpoint for US airports
- Miniature x-ray scanner in automated security portal

CT Brain Scanner - Tomo

- Medical imaging technology for pre-hospital, in-ambulance diagnosis of strokes - treatment within 'The Golden Hour'
- **Up to \$8m funding** as part of Australian Stroke Alliance's grant from Medical Research Future Fund

OUR STRATEGY

MONETISE OUR 'FIRST MOVER' ADVANTAGE

Commercialise high in the value chain to maximise revenue

- avoid commoditisation as long as possible
- **keep innovating to stay in front of competitors**

Look for the 'low hanging fruit' products where our technology delivers a customer benefit and the best product margins

Successful first movers in breakthrough technology move quickly:
early commercial domination becomes a barrier to entry for others

Expand channel partners & collaborations to create required paths to market at scale

OUR GOAL

Four global production lines:

- **common technology platforms**
- **high-margin**
- **operating within five years**

OUR PRODUCTS

EXPERIENCED LEADERSHIP

TECHNICAL AND COMMERCIAL EXPERTISE TO SUPPORT OUR OBJECTIVES

Peter Rowland
Managing Director & CEO

- Over 30 years' engineering and management in medical device & and aerospace industries
- Previously BAE Systems, Ellex Medical and Biolase Technology (NASDAQ)

David Knox
Non-Executive Chairman

- Extensive international business experience delivering large energy projects
- Formerly CEO of Santos and Australian Naval Infrastructure
- Chair of Snowy Hydro, Director of CSIRO

Patrick O'Brien
Non-Executive Director

- Over 25 years' business and finance experience in UK, Asia and Australia
- Former Executive Director at Macquarie Group; McKinsey; and Minter Ellison

Yasmin King
Non-Executive Director

- Extensive experience in business, negotiation & procurement and Government
- Currently CEO of Skills IQ, formerly Associate Commissioner of ACCC
- Director of the Australian Healthcare and Hospitals Association

Dr Alexander Gosling, AM
Non-Executive Director

- Over 40 years' business, technology and R&D experience
- A founding Director at Invetech (Vision Systems); strategy for Capstone

Jim McDowell
Non-Executive Director

- Extensive experience in Defence and Aerospace industries
- Current CEO of Nova Group
- Former Chief Executive of the Department of Premier for South Australia

GROWTH STAGE COMPANY WITH INSTITUTIONAL SUPPORT

CONCLUSION

UNLOCKING VALUE FROM REVOLUTIONARY COLD CATHODE TECHNOLOGY

- 
- Own the **proven technical edge**
 - Products with **revenues in 26 counties**
 - Multiple product lines** in design
 - Massive addressable markets**
 - Customer pull** – not technology push
 - Demonstrated **design & manufacturing capability** to deliver
 - Continuous **innovation** to **drive value**
